EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eric Kron and Murray Spruill on 6/19/01.

A communication was mailed to applicant on 6/19/01 that indicated that the response filed 4/9/01 was incomplete. The paper copy of the sequence listing has been located and entered into the application file. The requirements of the communication mailed 6/19/01 are hereby withdrawn.

During the interview the examiner indicated that a restriction requirement would be made in the instant application and the restriction requirement is set forth below.

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-4, drawn to a masked expression cassette.

Art Unit: 1635

Group II, claim(s) 10-15, drawn to methods of controlling the expression of a protein of interest.

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The methods of group II can be performed using other than the masked expression cassette of Group I.

4. During a telephone conversation with Eric Kron on 6/19/01 a provisional election was made without traverse to prosecute the invention of Group I, claims 1-4. It was indicated by applicant representative that these claims would be pursued in a divisional application..

5. The application has been amended as follows:

Nonelected claims ~~5-15~~ have been canceled.

Claim 1 has been canceled and rewritten as new claim 16.

131
Claim ~~16~~ 16. A masked expression cassette comprising a first strand comprising an RNA sequence which encodes a protein of interest wherein the RNA sequence is linked downstream of a flanking sequence, and a translation initiation site operably linked upstream of the RNA sequence: and, a second strand bound to the flanking sequence, wherein the second strand

Art Unit: 1635

cont

comprises an antisense sequence corresponding to the flanking sequence and a target nucleic acid sequence, where when the masked expression cassette is contacted with the target nucleic acid the second strand dissociates from the cassette allowing expression of the protein of interest.

In claim 2, line 1, "1" has been deleted and replaced with --16--.

In claim 3, line 1, "1" has been deleted and replaced with --16--.

In claim 3, line 1, "comprises" has been deleted and replaced with --is--.

In claim 4, line 1, "1" has been deleted and replaced with --16--.

6. The following is an examiner's statement of reasons for allowance: The composition claims related to the amended claims above were rejected under 35 U.S.C. 112, first paragraph. This rejection of the compositions was based on the utility asserted in the specification drawn to *in vivo* use. The specification however does include *in vitro* utilities (see page 3 and Figure 7, for example).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sean McGarry whose telephone number is (703) 305-7028.
